

# Dynamic Equilibrium

Pre-lesson assignment- textbook page 154-159

## Define the following terms

- Reversible reaction
- Dynamic
- Position of equilibrium
- Le Chatelier's principle

**Now watch the video on Dynamic Equilibrium**

## Make notes on equilibrium

*Use the following questions as guidance*

1. Explain how a dynamic equilibrium is formed.
2. State le Chatelier's principle: How does this apply to a change in
  - a. Concentration
  - b. Pressure
  - c. Temperature
