

## Two Step Synthesis

## Pre-lesson assignment – Textbook Pg 244-249

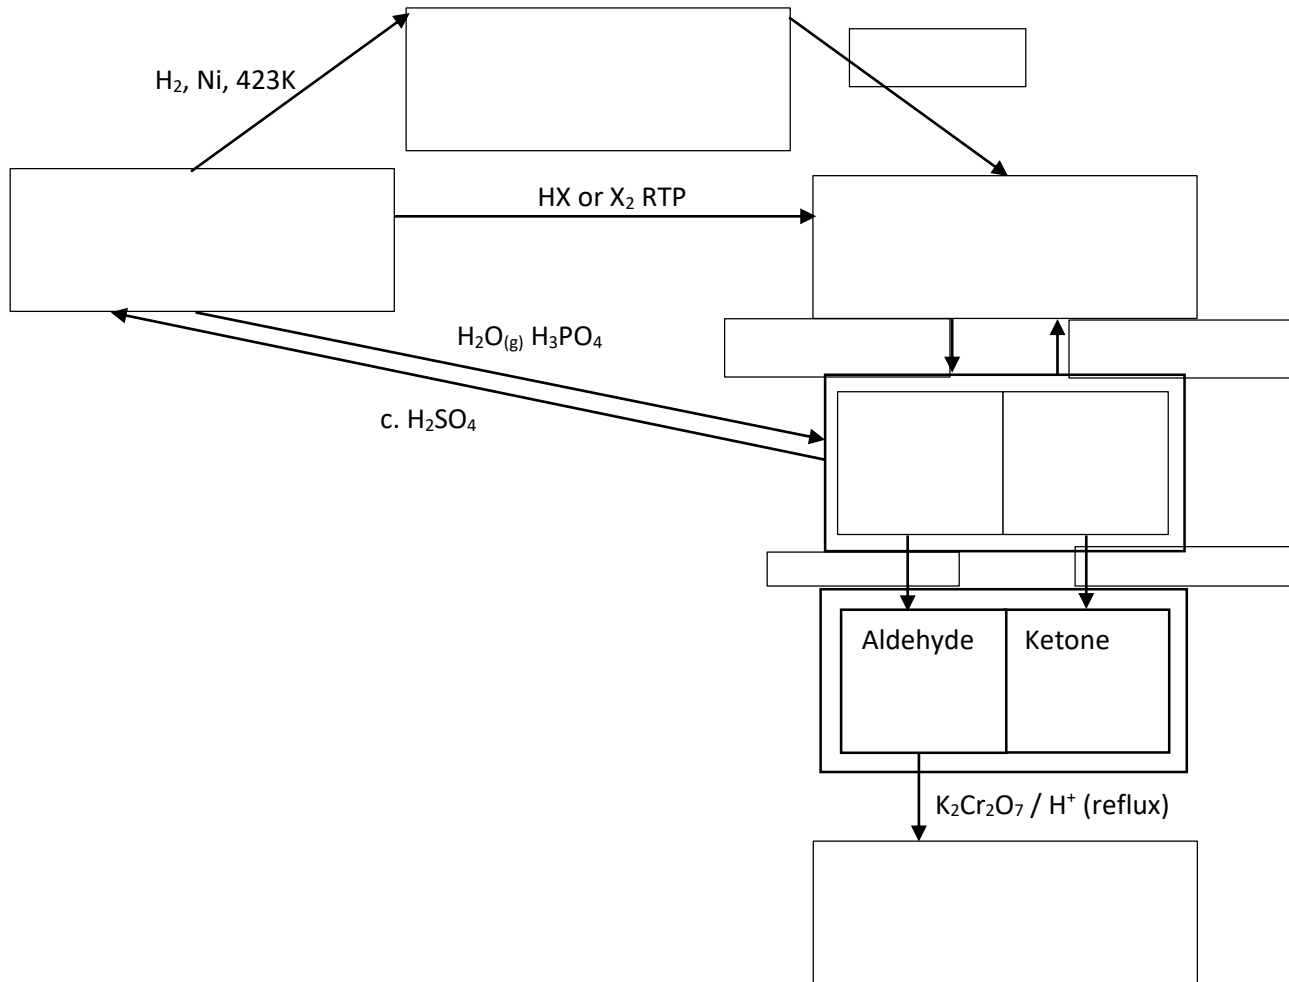

## Define the following terms

- Target molecule

Make notes on two step synthesis

Use the following questions as a guide

1. Complete the diagram below:

- Describe how you could make butanal from 1-chlorobutane in two steps
- Describe how you could make propanone from propene in two steps.

## Summary Questions

You should now be able to complete and mark the summary questions on p234, 237, and 249 before the next test.
