

Qualitative Analysis

Pre-lesson assignment p115-118

Define the following terms:

- Qualitative Analysis

Make notes on Qualitative Analysis.

Use the following questions as guidance.

1. With an equation, describe the test and result for...
 - a. A carbonate
 - b. A sulfate
 - c. A halide
 - d. An ammonium ion
2. State the order in which these tests are carried out, and explain why this order must be used.

This is the end of the topic: Now please complete the summary questions on pages 103, 109, 114 and 118. You are also strongly advised to do the practice questions on page 119-121. Answers can be found here:
